

## Online Supplementary Material

Xin Yun Zou,et al., Association Between Immune Cells And Endometrial Cancer : A Bidirectional Mendelian Randomization Study

Fig. S2 The stability of CM CD4+ %T cells was demonstrated by forest plot, scatter plot and funnel plot. (Causal effect of EC on CM CD4+ %T cells analysed by MR )

Abbreviations: IVW , inverse variance weighting ;EC, endometrial cancer; MR, Mendelian randomization; SNP, single nucleotide polymorphism.

Fig.S2
