

Figure S1

Representative flow cytometry gating and macrophage counts

(A) Representative flow cytometry gating for CD45-LYVE-1⁺ LECs. (B) Total CD45⁺F4/80⁺CD11b⁺ macrophage count normalized to mammary gland weight from 5-week and 12-week female *Csf1r^{fl/fl}* (grey) and *Lyve1^{Cre}Csf1r^{fl/fl}* (blue) mice. Each dot represents one mouse.
