

**A** Change from Baseline to Month 6 for dysmenorrhea (VRS) – Full analysis set.

LGX: LINZAGOLIX; ABT: Add-Back Therapy; VRS: Verbal Rating Scale.

**B** Change from Baseline to Month 6 for non-menstrual pelvic pain (VRS) – Full analysis set.

LGX: LINZAGOLIX; ABT: Add-Back Therapy; VRS: Verbal Rating Scale.

**Supplementary Figure S1.** Month 6 scores: mean of daily assessments in the last 28 days prior to Month 6 or discontinuation. (A) Dysmenorrhea and (B) Non-menstrual pelvic pain. Due to the large sample size and discreteness of outcomes, a small random variation was added to avoid overplotting and/or random sub-sampling.
