# Supplementary Figure 4

**Supplementary Figure 4. Signature analysis and representation of somatic alterations of the two tumors of case 2.**
A) Tree representing the total number of somatic SNVs and indels detected across the tumor samples. B) Mutational signatures fitted on clonal and subclonal SNVs in both tumors. C) Circos plot representing all somatic alterations identified in tumors 1 and 2 of case 2. D) Mutational profile of clonal and subclonal mutations of both tumors.
