

Data Sharing Statement

Dulhunty. Continuous vs Intermittent β -Lactam Antibiotic Infusions in Critically Ill Patients With Sepsis. *JAMA*. Published June 12, 2024. doi:10.1001/jama.2024.9779

Data

Data available: Yes

Data types: Deidentified participant data, Data dictionary

How to access data: Contact person: Dr Naomi Hammond,
nhammond@georgeinstitute.org.au

When available: With publication

Supporting Documents

Document types: None

Additional Information

Who can access the data: The trial data will be shared in a manner consistent with the Data Sharing Policy of The George Institute for Global Health, which governs appropriate and responsible sharing of the Institute's data for scientific research:

<https://www.georgeinstitute.org.au/data-sharing-policy>

Types of analyses: The data sharing will be only for the purposes of health and medical research and within the constraints of the consent under which the data were originally gathered.

Mechanisms of data availability: The requester will be required to enter into a Data Sharing Agreement with The George Institute for Global Health (the Institute), which meets the Institute's data sharing requirements.
