

Table S1

Surface markers	Molecular identity	Indication
CD14	LPS co-receptor	Monocyte/macrophage (M1) marker
CD16	FcγRIII	Monocyte/macrophage marker (↑ expression by M2-like stimulation)
CD105	Endoglin	Endothelial cell marker
CD133	Prominin-1	Stem cell marker
CD31	PECAM-1	Endothelial cell marker
HLA-DR	MHC-II	Antigen presenting cells activation marker
CD163	scavenger receptor for the hemoglobin- haptoglobin complex	Alternatively activated macrophages marker
CD206	Mannose receptor	Alternatively activated macrophages marker
