Subject: HIV Case Based Surveillance (CBS) Data Access Support Request

We are writing this letter in support of our MPH field Epidemiology student Mr. Nigatu Admsu (Cohort-VII, R-I HIV Track Resident) for the acquisition of HIV secondary data from data base (REDCap) for his fulfilment for the requirement of Residency-I Output. Nigatu has been working as a residency-I (HIV Track resident) at Bonga Field Base and he want to analyse the South Western Regional (SWR) health bureau HIV case based Surveillance data as the requirement for his Residency-I output. He has completed a proposal related to HIV case Based Surveillance and has submitted to his mentors and advisor's for consideration. Currently, he is waiting your decision in access to the SWR health bureau data related to HIV Case Based Surveillance.

Since the time for residency-I is near completion, we would like to request your office (EPHI HIV CBS Publication Advisory Committee (CPAC)) to facilitate the usual cooperation according to your organizational data access policy in accessing the data for the resident.

Sincerely,

Dr. Lelisa Sena
Head, Department
of Epidemiology
