

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: List of identified proteins from single cells of NHC, HuCCT-1, RBE and EGI-1 cell lines

File name: Supplementary Data 2

Description: List of peptides with SAPs along with their relative abundance

File name: Supplementary Data 3

Description: List of peptides with PTMs along with their relative abundance

File name: Supplementary Data 4

Description: List of peptides with PTMs along with their relative abundance

File name: Supplementary Data 5

Description: Numerical source data for graphs of main figures

File name: Supplementary Data 6

Description: Numerical source data for graphs of supplementary figures
