CARE guidelines for case reports: 13-item checklist

Please indicate in which section each item has been reported in your manuscript. If you feel that an item does not apply to your manuscript, please enter N/A.

For more information about the CARE guidelines, please see http://www.care-statement.org/.

The area of focus and "case report" should appear in the title Keywords Two to five key words that identify topics covered in this case report Abstract Introduction—What is unique about this case? What does it add to the medical literature? The main symptoms of the patient and the important clinical findings The main diagnoses, therapeutics interventions, and outcomes Conclusion—What are the main 'take-away' lessons from this case? Introduction Briefly summarize why this case is unique with medical literature references Patient information De-identified demographic information and other patient specific information De-identified demographic information and other patient specific information Main concerns and symptoms of the patient Medical, family, and psychosocial history including relevant genetic information Relevant past interventions and their outcomes Clinical findings Describe the relevant physical examination (PE) and other clinical findings Timeline A timeline of relevant information from the patient's history and this episode of care Diagnostics assessment Bugnostic methods (such as PE, laboratory testing, imaging, surveys) Diagnostic methods (such as access, financial, or cultural) Bugnostic challenges (such as access, financial, or cultural) Colinical forevention Prognostic characteristics (such as staging in oncology) where applicable Therapeutic intervention Administration of intervention (such as pharmacologic, surgical, preventive, self-care) Administration of intervention (such as dosage, strength, duration) Changes in intervention with rationale Follow-up and outcomes Clinician and patient-assessed outcomes when appropriate Intervention adherence and tolerability (how was this assessed?)	No.	Description	Section #
