

Description of Additional Supplementary Files

File name: Supplementary Data 1

Description: The mean scores of the activity of transcription factors (TF) in stromal, perivascular and endothelial cell populations of eutopic endometrium (EuE) and ectopic endometrium (EcE).

File name: Supplementary Data 2

Description: Statistically significant differentially regulated genes of metabolic pathways between ectopic endometrium and eutopic endometrium. NS - statistically non significant value ($p_{adj} < 0.05$)

File name: Supplementary Data 3

Description: The source data (raw transcriptomic data) behind the tables and graphs in the paper deposited at GEO repository.
