

Supplementary Figure 4

Supplementary figure 4. Association between the percentage change in *SUMO3* mRNA level and different white blood cell populations in peripheral blood of lung cancer patients. (A-D) The absolute counts of WBC, NEU, MON and LYM were compared among different groups base on the percentage change of *SUMO3*. (E-H) The percentages of lymphocyte subsets were compared among different groups base on the percentage change of *SUMO3*. Student's paired t-test, * $P < 0.05$, ** $P < 0.01$.
