eTable 7. Follow-Up Model Testing Additive and Interactive Effects of Traumatic and Stressful Events

This supplemental material has been provided by the authors to give readers additional information about their work.

eTable 1. List of Stressful and Traumatic Events				
Lifetime Traumatic Events	3-month Stressful Events			
Death of a close relative or friend	New child in home			
Witness to a traumatic event	Pregnancy			
Diagnosis with a life-threatening illness	Parental separation			
Serious accident	Parental divorce			
Fire	New parental figure			
Exposure to life-threatening toxic agent	Moving			
Learning of a traumatic event	Change of school/work other than promotion			
War or terrorism	Loss of best friend through move			
Cause of death or serious harm	Break-up with best friend			
Victim of physical violence	Break-up with boy/girlfriend/spouse			
Victim of physical abuse	Parental arrest			
Kidnapping or captivity	Reduction in standard of living			
Sexual abuse	Forced separation from home			
Rape	Death of pet*			

* Death of pet was only included in stressful events for preschoolers.
