

Supplementary Figure S1. OCT of a normal macula. Left, panoramic view with frame delimiting area visible in detailed view on the right.

Layers: ILM, inner limiting membrane; GCL, ganglion cell layer; INL, inner nuclear layer; OPL, outer plexiform layer; HFL, Henle fiber layer; ONL, outer nuclear layer; IS, inner segment; OS, outer segments; RPE, retinal pigment epithelium cell bodies; ChC, choriocapillaris. The choriocapillaris is labeled by anticipated location, but is not specifically visible.
