

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tau-24-104	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The patient demographic information, stricture characteristics, operative details and postoperative outcomes including PVR, and time to repeat intervention for affected patients.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Relevant information can be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the date of publication, as the application of DCB will likely be adjusted and become more widespread during this interval.
7	To whom will you share the data?	Urologists interested in further evaluating and/or implementing DCB in their clinical practices.
8	For what type of analysis or purpose?	For analysis of safety and analyzing treatment indications for DCB on urethral stricture disease.
9	How or where can the data/documents be obtained?	Emails can be sent to the address below to obtain shared data: ashmahen@iu.edu
10	Any other restrictions?	We may evaluate the potential benefits and risks of each individual request prior to providing data to be shared.
