

Data Sharing Statement

Bhavani. The Precision Resuscitation With Crystalloids in Sepsis (PRECISE) Trial. *JAMA Netw Open*. Published September 18, 2024. doi:10.1001/jamanetworkopen.2024.34197

Data

Data available: Yes

Data types: Deidentified participant data

How to access data: Requests for data sharing should be directed to the corresponding author (sbhava2@emory.edu), and data will be accessible for a period of at least five years following the publication of the primary results.

When available: With publication

Supporting Documents

Document types: None

Additional Information

Who can access the data: De-identified patient data will be made available to researchers who provide a methodologically sound proposal, subject to approval by the study team.

Types of analyses: Any secondary analyses of the trial results.

Mechanisms of data availability: After approval of a proposal and a signed data access agreement.
