Description of Additional Supplementary Files

File Name: Supplementary Data 1
Description: relates to Figure 1-4: nsRBNS data table used for all analyses with sequences, relevant iCLIP information, enrichment values, zscores, relevant sequence information, and relevant oligo information

File Name: Supplementary Data 2
Description: relates to Figure 5: 100vert RBNS data table used for all analyses with sequences, relevant species information, enrichment values, relevant sequence information, and relevant oligo information
