Table S2. Trends on number, geographical coverage and duration of reported shortages by different subgroups from 2018 to 2020.	4

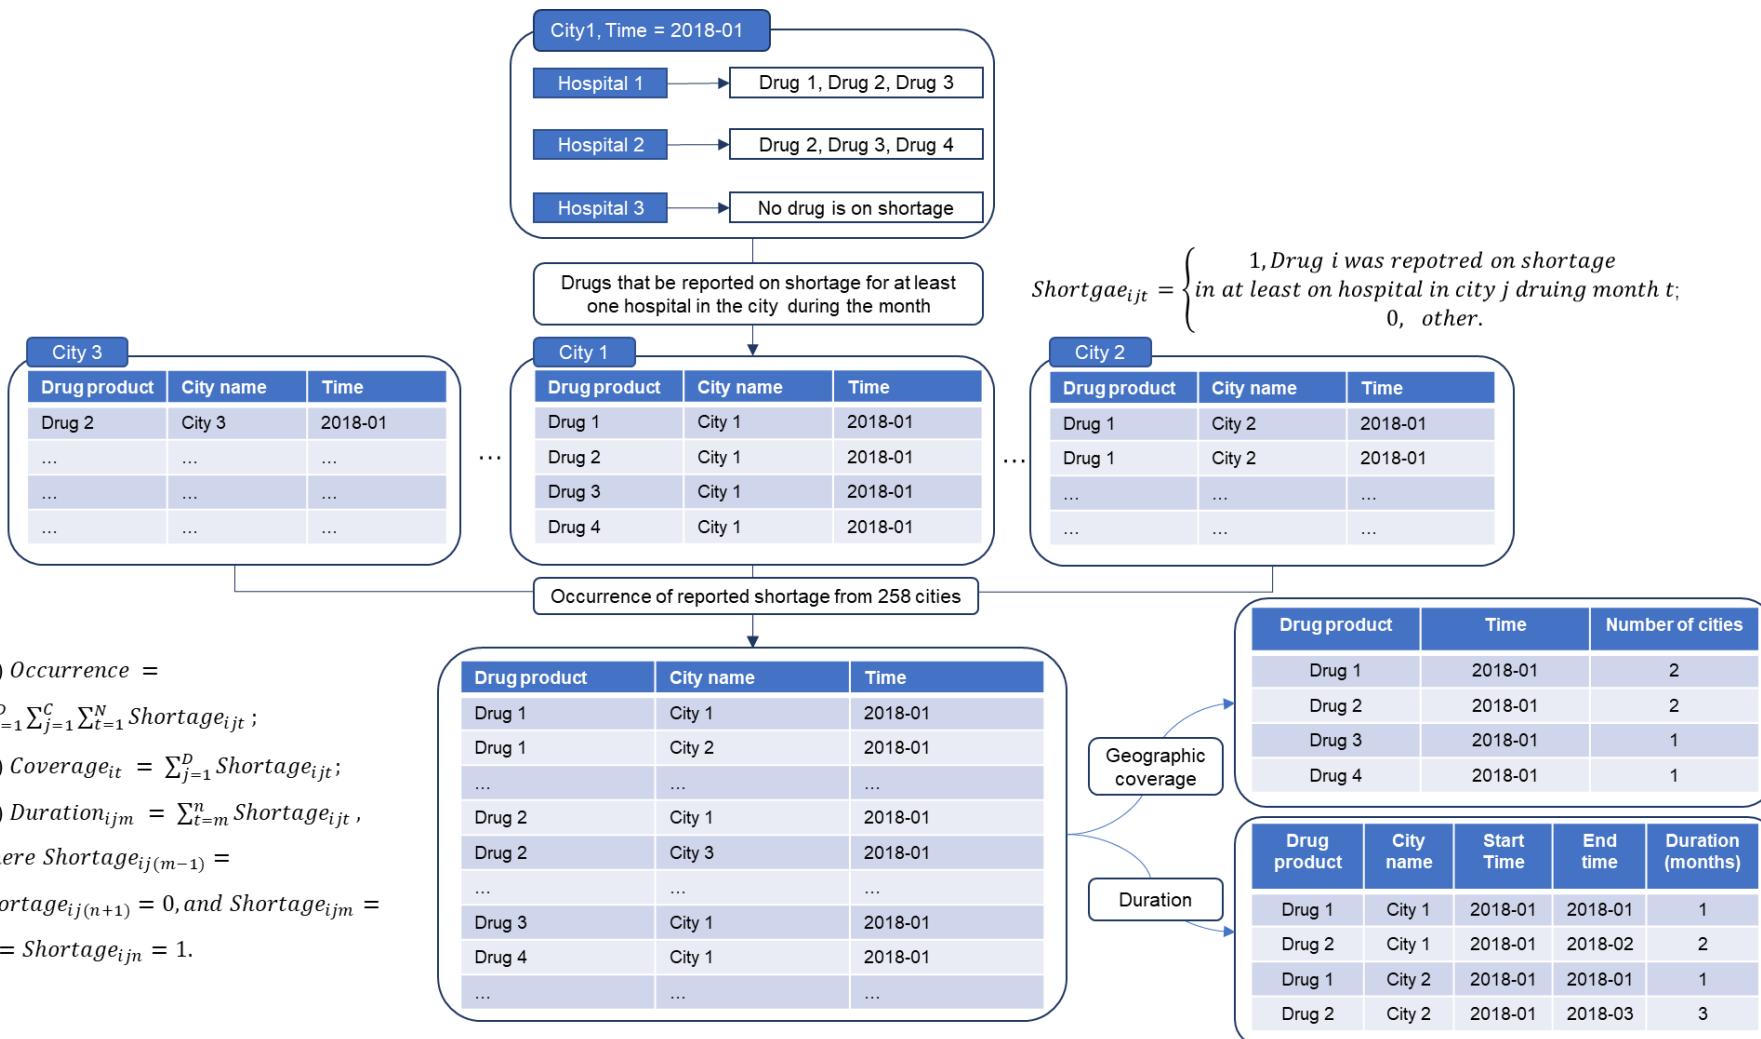

Figure S1. Data collection and processing and calculation of the three outcome measures.

Table S1. Top ten drug products that reported most frequently from 2018 to 2020

Generic name	Dosage form	Route of administration	Total occurrence of reported shortage
Methotrexate	Powder	PARENTERAL	1346
Allopurinol	Tablet	Oral	1280
Ketamine	Solutions	PARENTERAL	981
Cytarabine	Powder	PARENTERAL	951
Nitroglycerin	Tablet	Sublingual	892
Vincristine	Powder	PARENTERAL	698
Atropine	Solution	PARENTERAL	664
Vitamin K1	Solutions	PARENTERAL	633
Posterior Pituitary	Solution	PARENTERAL	612
Pyridostigmine Bromide	Tablet	Oral	599

Table S2. Trends on number, geographical coverage and duration of reported shortages by different subgroups from 2018 to 2020

Characteristics	Monthly number of shortages					Geographical coverage					Duration*				
	Z	P value	2018M1	2020M12	Change%	Z	P value	2018M1	2020M12	Change%	Z	P value	2018M7	2020M6	Change%

*To avoid possible bias stemming from the possibility that shortages starting earlier would expect longer duration, trend tests for duration of shortages were performed after excluding data from the first and last six months (almost one standard deviations of average shortage duration) of the study period.

†NA, not applicable when the denominator is zero.
