Supplementary Table S1. Components and scoring criteria of the Mediterranean Diet (MED) score.

Components	Food	Score of 1	Score of 0
1.vegetables	coleslaw, side salad, avocado, beetroot, broccoli, butternut squash, cabbage/kale, carrot, cauliflower, celery, courgette, cucumber, garlic, leek, lettuce, mushroom, onion, parsnip, sweet pepper, spinach, other vegetables		
2.legumes	baked bean, pulses, broad bean, tofu		
3.fruits and nuts	fruit juice, stewed fruit, prune, dried fruit, mixed fruit, apple, banana, berry, cherry, grapefruit, grape, mango, melon, orange, satsuma, other fruit, salted peanuts, unsalted peanuts, salted nuts, unsalted nuts, seeds	for each component, intakes above the median	for each component, intakes below the median
4.cereals	porridge, muesli, oat crunch, sweetened cereal, plain cereal, bran cereal, whole-wheat cereal, other cereal, whole-meal pasta, brown rice, couscous, bread, garlic bread, crispbread, oatcakes, other bread, white pasta, white rice, other grain, pancake, scotch pancake, danish pastry, scone, cereal bar, savoury biscuits, cheesy biscuits		
5.fish	tinned tuna, oily fish, breaded fish, battered fish, white fish, prawns, lobster/crab, shellfish, other fish		
6. MUFA: SFA ratio	monounsaturated fatty acids, saturated fatty acids		
7.meat and meat product	sausage, beef, pork, lamb, bacon, ham, liver		
8.dairy and dairy product	fat hard cheese, hard cheese, soft cheese, blue cheese, low fat cheese spread, cheese spread, cottage cheese, feta, mozzarella, goats cheese, other cheese	for each component, intakes below the median	for each component, intakes above the median
9.alcohol	alcohol	5 g/d ≤ alcohol ≤ 25 g/d	alcohol <5g/d or >25 g/d
total score		9	0

Abbreviations: MUFA, monounsaturated fatty acid; SFA, saturated fatty acid.

Supplementary Table S2. Components and scoring criteria of the alternative Mediterranean Diet (aMED) score.

Components	Food	Score of 1	Score of 0
1.vegetables	coleslaw, side salad, avocado, beetroot, broccoli, butternut squash, cabbage/kale, carrot, cauliflower, celery, courgette, cucumber, garlic, leek, lettuce, mushroom, onion, parsnip, sweet pepper, spinach, other vegetables		
2.legumes	baked bean, pulses, broad bean, tofu		
3.fruits	fruit juice, stewed fruit, prune, dried fruit, mixed fruit, apple, banana, berry, cherry, grapefruit, grape, mango, melon, orange, satsuma, other fruit	for each component, intakes above the median	for each component, intakes below the median
4.nuts	salted peanuts, unsalted peanuts, salted nuts, unsalted nuts, seeds		
5.whole grains	muesli, oat crunch, sweetened cereal, plain cereal, bran cereal, whole-wheat cereal, other cereal, oatcakes, whole-meal pasta, brown rice, couscous, cereal bar		
6.fish	tinned tuna, oily fish, breaded fish, battered fish, white fish, prawns, lobster/crab, shellfish, other fish		
7. MUFA: SFA ratio	monounsaturated fatty acids, saturated fatty acids		
8.red and processed meat	sausage, beef, pork, lamb, bacon, ham, liver	for each component, intakes below the median	for each component, intakes above the median
9.alcohol	alcohol	5 g/d ≤ alcohol ≤15 g/d	alcohol <5g/d or >15 g/d
total score		9	0

Abbreviations: MUFA, monounsaturated fatty acid; SFA, saturated fatty acid.

Supplementary Table S3. Components and scoring criteria of the overall Plant-based Diet Index (PDI).

Components	Food	Criteria for maximum score ^a	Criteria for minimum score
1.whole grains	porridge, muesli, oat crunch, sweetened cereal, plain cereal, bran cereal, whole-wheat cereal, other cereal, whole-meal pasta, brown rice, couscous		
2.fruits	avocado, stewed fruit, mixed fruit, apple, banana, berry, cherry, grapefruit, grape, mango, melon, orange, satsuma, peach/nectarine, pear, pineapple, plum, other fruits		
3.vegetables	coleslaw, side salad, beetroot, broccoli, butternut squash, cabbage/kale, carrot, cauliflower, celery, courgette, cucumber, garlic, leek, lettuce, mushroom, onion, parsnip, pea, sweet pepper, spinach, sprouts, sweetcorn, sweet potato, fresh tomato, tinned tomato, turnip/swede, watercress, other vegetables		
4.nuts	salted peanuts, unsalted peanuts, salted nuts, unsalted nuts, seeds		
5.legumes	baked bean, pulses, broad bean, green bean, tofu		
6.vegetable oils	Oil-based salad dressing, vegetable oil used for cooking		
7.tea & coffee	instant coffee, filtered coffee, cappuccino, latte, espresso, other coffee type, decaffeinated coffee, standard tea, rooibos tea, green tea, herbal tea, other tea	for each component, intakes above the highest quintile score 5	for each component, intakes below the lowest quintile score 1
8.fruit juices	squash, orange juice, grapefruit juice, pure fruit/vegetable juice		
9.refined grains	sliced bread, baguette, bap, bread roll, naan bread, garlic bread, crispbread, oatcakes, other bread, white pasta, white rice, other grain, pancake, scotch pancake, danish pastry, scone, cereal bar, savoury biscuits, cheesy biscuits		
10.potatoes	fried potatoes, boiled/baked potatoes, mashed potato, crisp		
11.sugar sweetened. beverages	fizzy drink, fruit smoothie, dairy smoothie, other drink		
12.sweets and desserts	hot chocolate, prune, dried fruit, snackpot, double crust pastry, single crust pastry, crumble, milk-based pudding, fruitcake, cake, doughnut, sponge pudding, cheesecake, other dessert, chocolate bar, white chocolate, milk chocolate, dark chocolate, chocolate-covered raisin, chocolate sweet, diet sweets, sweets, chocolate-covered biscuits, chocolate biscuits, sweet biscuits, other sweets, other savoury snack		

13.animal fat	butter/margarine on bread/crackers, butter/margarine added to potatoes		
14.dairy	milk, flavoured milk, yogurt, ice-cream, low fat hard cheese, hard cheese, soft cheese, blue cheese, low fat cheese spread, cheese spread, cottage cheese, feta, mozzarella, goats cheese, other cheese		
15.egg	whole egg, omelette, eggs in sandwiches, scotch egg, other egg	for each component,	for each component,
16.fish or seafood	tinned tuna, oily fish, breaded fish, battered fish, white fish, prawns, lobster crab, shellfish, other fish	intakes below the lowest quintile score 5	intakes above the highest quintile score 1
17.meat	sausage, beef, pork, lamb, crumbed or deep-fried poultry, poultry, bacon, ham, liver, other meat		
18.miscellaneous animal-based foods	pizza, chowder or cream soup		
total score		90	18

^a Each component is divided into quintiles of consumption, and each quintile is assigned a score of 5 to 1.

Supplementary Table S4. Components and scoring criteria of the healthy Plant-based Diet Index (hPDI).

Components	Food	Criteria for maximum score ^a	Criteria for minimum score
1.whole grains	porridge, muesli, oat crunch, sweetened cereal, plain cereal, bran cereal, whole-wheat cereal, other cereal, whole-meal pasta, brown rice, couscous		
2.fruits	avocado, stewed fruit, mixed fruit, apple, banana, berry, cherry, grapefruit, grape, mango, melon, orange, satsuma, peach/nectarine, pear, pineapple, plum, other fruit		
3.vegetables	coleslaw, side salad, beetroot, broccoli, butternut squash, cabbage/kale, carrot, cauliflower, celery, courgette, cucumber, garlic, leek, lettuce, mushroom, onion, parsnip, pea, sweet pepper, spinach, sprouts, sweetcorn, sweet potato, fresh tomato, tinned tomato, turnip/swede, watercress, other vegetables	for each component, intakes above the highest quintile score 5	for each component, intakes below the lowest quintile score 1
4.nuts	salted peanuts, unsalted peanuts, salted nuts, unsalted nuts, seeds		
5.legumes	baked bean, pulses, broad bean, green bean, tofu		
6.vegetable oils	Oil-based salad dressing, vegetable oil used for cooking		
7.tea & coffee	instant coffee, filtered coffee, cappuccino, latte, espresso, other coffee type, decaffeinated coffee, standard tea, rooibos tea, green tea, herbal tea, other tea		
8.fruit juices	squash, orange juice, grapefruit juice, pure fruit/vegetable juice		
9.refined grains	sliced bread, baguette, bap, bread roll, naan bread, garlic bread, crispbread, oatcakes, other bread, white pasta, white rice, other grain, pancake, scotch pancake, danish pastry, scone, cereal bar, savoury biscuits, cheesy biscuits		
10.potatoes	fried potatoes, boiled/baked potatoes, mashed potato, crisp		
11.sugar sweetened beverages	fizzy drink, fruit smoothie, dairy smoothie,other drink	for each component, intakes below the lowest quintile score 5	for each component, intakes above the highest quintile score 1
12.sweets and desserts	hot chocolate, prune, dried fruit, snackpot, double crust pastry, single crust pastry, crumble, milk-based pudding, fruitcake, cake, doughnut, sponge pudding, cheesecake, other dessert, chocolate bar, white chocolate, milk chocolate, dark chocolate, chocolate-covered raisin, chocolate sweet, diet sweets, sweets, chocolate-covered biscuits, chocolate biscuits, sweet biscuits, other sweets, other savoury snack		

13.animal fat	butter/margarine on bread/crackers, butter/margarine added to potatoes		
14.dairy	milk, flavoured milk, yogurt, ice-cream, low fat hard cheese, hard cheese, soft cheese, blue cheese, low fat cheese spread, cheese spread,cottage cheese, feta, mozzarella, goats cheese, other cheese		
15.egg	whole egg, omelette, eggs in sandwiches, scotch egg, other egg		
16.fish or seafood	tinned tuna, oily fish, breaded fish, battered fish, white fish, prawns, lobster crab, shellfish, other fish		
17.meat	sausage, beef, pork, lamb, crumbed or deep-fried poultry, poultry, bacon, ham, liver, other meat		
18. miscellaneous animal-based foods	pizza, chowder or cream soup		
total score		90	18

^a Each component is divided into quintiles of consumption, and each quintile is assigned a score of 5 to 1.

Supplemental Table S5. Components and scoring criteria of the unhealthy Plant-based Diet Index (uPDI).

Components	Food	Criteria for maximum score ^a	Criteria for minimum score
1.whole grains	porridge, muesli, oat crunch, sweetened cereal, plain cereal, bran cereal, whole-wheat cereal, other cereal, whole-meal pasta, brown rice, couscous		
2.fruits	avocado, stewed fruit, mixed fruit, apple, banana, berry, cherry, grapefruit, grape, mango, melon, orange, satsuma, peach/nectarine, pear, pineapple, plum, other fruit		
3.vegetables	coleslaw, side salad, beetroot, broccoli, butternut squash, cabbage/kale, carrot, cauliflower, celery, courgette, cucumber, garlic, leek, lettuce, mushroom, onion, parsnip, pea, sweet pepper, spinach, sprouts, sweetcorn, sweet potato, fresh tomato, tinned tomato, turnip/swede, watercress, other vegetables	for each component, intakes below the lowest quintile score 5	for each component, intakes below the highest quintile score 1
4.nuts	salted peanuts, unsalted peanuts, salted nuts, unsalted nuts, seeds		
5.legumes	baked bean, pulses, broad bean, green bean, tofu		
6.vegetable oils	Oil-based salad dressing, vegetable oil used for cooking		
7.tea & coffee	instant coffee, filtered coffee, cappuccino, latte, espresso, other coffee type, decaffeinated coffee, standard tea, rooibos tea, green tea, herbal tea, other tea		
8.fruit juices	squash, orange juice, grapefruit juice, pure fruit/vegetable juice		
9.refined grains	sliced bread, baguette, bap, bread roll, naan bread, garlic bread, crispbread, oatcakes, other bread, white pasta, white rice, other grain, pancake, scotch pancake, danish pastry, scone, cereal bar, savoury biscuits, cheesy biscuits		
10.potatoes	fried potatoes, boiled/baked potatoes, mashed potato, crisp		
11.sugar sweetened beverages	fizzy drink, fruit smoothie, dairy smoothie, other drink	for each component, intakes above the highest quintile score 5	for each component, intakes below the lowest quintile score 1
12.sweets and desserts	hot chocolate, prune, dried fruit, snackpot, double crust pastry, single crust pastry, crumble, milk-based pudding, fruitcake, cake, doughnut, sponge pudding, cheesecake, other dessert, chocolate bar, white chocolate, milk chocolate, dark chocolate, chocolate-covered raisin, chocolate sweet, diet sweets, sweets, chocolate-covered biscuits, chocolate biscuits, sweet biscuits, other sweets, other savoury snack		

13.animal fat	butter/margarine on bread/crackers, butter/margarine added to potatoes		
14.dairy	milk, flavoured milk, yogurt, ice-cream, low fat hard cheese, hard cheese, soft cheese, blue cheese, low fat cheese spread, cheese spread, cottage cheese, feta, mozzarella, goats cheese, other cheese		
15.egg	whole egg, omelette, eggs in sandwiches, scotch egg, other egg	for each component,	
16.fish or seafood	tinned tuna, oily fish, breaded fish, battered fish, white fish, prawns, lobster crab, shellfish, other fish	intakes below the lowest quintile score 5	intakes below the highest quintile score 1
17.meat	sausage, beef, pork, lamb, crumbed or deep-fried poultry, poultry, bacon, ham, liver, other meat		
18. miscellaneous animal-based foods	pizza, chowder or cream soup		
total score		90	18

^a Each component is divided into quintiles of consumption, and each quintile is assigned a score of 5 to 1.

Supplementary Table S6. Components and scoring criteria of the Healthy Eating Index 2015 (HEI-2015).

Components	Food	Max score ^a	Criteria for maximum score	Score of 0
1.total fruits	stewed fruit, prune, dried fruit, mixed fruit, apple, banana, berry, cherry, grapefruit, grape, mango, melon, orange, satsuma, peach/nectarine, pear, pineapple, plum, other fruit intake	5	≥0.8 cup eq. per 1,000 kcal	no intake
2.whole fruits	fruit juice, stewed fruit, prune, dried fruit, mixed fruit, apple, banana, berry, cherry, grapefruit, grape, mango, melon, orange, satsuma, peach/nectarine, pear, pineapple, plum, other fruit	5	≥0.4 cup eq. per 1,000 kcal	no intake
3.total vegetables	baked bean, pulses, coleslaw, side salad, avocado, broad bean, green bean, beetroot, broccoli, butternut squash, cabbage/kale, carrot, cauliflower, celery, courgette, cucumber, garlic, leek, lettuce, mushroom, onion, parsnip, pea, sweet pepper, spinach, sprouts, sweetcorn, sweet potato, fresh tomato, tinned tomato, turnip/swede, watercress, other vegetables	5	≥1.1 cup eq. per 1,000 kcal	no intake
4.greens and beans	coleslaw, broccoli, celery, courgette, cucumber, leek, lettuce, spinach, sprouts, watercress, other vegetables, baked bean, pulses, broad bean, green bean, pea	5	≥0.2 cup eq. per 1,000 kcal	no intake
5.whole grains	muesli, oat crunch, sweetened cereal, plain cereal, bran cereal, whole-wheat cereal, other cereal, oatcakes, whole-meal pasta, brown rice, couscous	10	≥1.5 oz eq. per 1,000 kcal	no intake
6.dairy	milk, flavoured milk, low fat hard cheese, hard cheese, soft cheese, blue cheese, low fat cheese spread, cheese spread, cottage cheese, feta, mozzarella, goats cheese, other cheese, milk-based pudding, other milk-based pudding, yogurt	10	≥1.3 cup eq. per 1,000 kcal	no intake
7.total protein foods	whole egg, scotch egg, other egg, sausage, beef, pork, lamb, crumbed or deep-fried poultry, poultry, bacon, ham, liver, other meat, tinned tuna, oily fish, breaded fish, battered fish, white fish, prawns, lobster/crab, shellfish, other fish, tofu, quorn, other vegetarian alternative, salted peanuts, unsalted peanuts, salted nuts, unsalted nuts, seeds, baked bean, pulses, broad bean, green bean, pea	5	≥2.5 oz eq. per 1,000 kcal	no intake
8.seafood and plant proteins	tinned tuna, oily fish, breaded fish, battered fish, white fish, prawns, lobster/crab, shellfish, other fish, vegetarian sausages/burgers, tofu, quorn, other vegetarian alternative, salted peanuts, unsalted peanuts, salted nuts, unsalted nuts, seeds, baked bean, pulses, broad bean, green bean, pea	5	≥0.8 oz eq. per 1,000 kcal	no intake

9.fatty acids	monounsaturated fatty acids, polyunsaturated fatty acids, saturated fatty acids	10	(MUFA +PUFA) /SFA ≥ 2.5	(MUFA + PUFA)/SFA ≤ 1.2
10.refined grains	porridge, sliced bread, baguette, bap, bread roll, naan bread, garlic bread, crispbread, oatcakes, other bread, white pasta, whole-meal pasta, white rice, sushi, snackpot, other grain, double crust pastry, single crust pastry, crumble, pizza, pancake, scotch pancake, cake, doughnut, other dessert	10	≤ 1.8 oz eq. per 1,000 kcal	≥ 4.3 oz eq. per 1,000 kcal
11.sodium	sodium	10	≤ 1.1 g per 1,000 kcal	≥ 2.0 g per 1,000 kcal
12.added sugars	added sugars and preserves	10	$\leq 6.5\%$ of energy	$\geq 26\%$ of energy
13.saturated fats	saturated fat	10	$\leq 8\%$ of energy	$\geq 16\%$ of energy
total score		100		0

Abbreviations: MUFA, monounsaturated fatty acid; PUFA, polyunsaturated fatty acid; SFA, saturated fatty acid; eq., equivalents.

^a Intakes between maximum score standard and zero points are scored proportionally.

Supplementary Table S7. Components and scoring criteria of EAT-Lancet Score.

Components	Food	Score for 1 point
1.whole grains	muesli, oat crunch, sweetened cereal, plain cereal, bran cereal, whole-wheat cereal, other cereal, sliced bread, baguette, bap, bread roll, naan bread, garlic bread, crispbread, oatcakes, other bread, cereal bar	≤ 464 g/day
2.vegetables	vegetable pieces, coleslaw, side salad, avocado, beetroot, broccoli, butternut squash, cabbage/kale, carrot, cauliflower, celery, courgette, cucumber, garlic, leek, lettuce, mushroom, other vegetables	≥ 200 g/day
3.fruits	squash, orange juice, grapefruit juice, pure fruit/vegetable juice, fruit smoothie, stewed fruit, prune, dried fruit, mixed fruit, apple, banana, berry, cherry, grapefruit, other fruit	≥ 100 g/day
4.tubers and starchy vegetables	fried potatoes, boiled/baked potatoes, mashed potato, crisp	≤ 100 g/day
5.dry beans, lentils, peas	baked bean, pulses, broad bean, green bean, pea	≤100g/day
6.soy foods	vegetarian sausages/burgers, tofu	≤50g/day
7.peanuts or treenuts	salted peanuts, unsalted peanuts, salted nuts, unsalted nuts, seeds	>25g/day
8.dairy foods	low fat hard cheese, hard cheese, soft cheese, blue cheese, low fat cheese spread, cheese spread, cottage cheese, feta, mozzarella, goats cheese, other cheese, milk-based pudding, other milk-based pudding, dairy smoothie, milk, flavoured milk, yogurt	≤500g/day
9.added sugar	sugar added to coffee, sugar added to tea, sugar added to cereal	≤31g/day
10.beef, lamb, pork	beef, lamb, pork, bacon, ham	≤28g/day
11.poultry	crumbed or deep-fried poultry, poultry	≤58g/day
12.eggs	whole egg, omelette, eggs in sandwiches, scotch egg, other egg	≤25g/day
13.fish	tinned tuna, oily fish, breaded fish, battered fish, white fish, prawns, lobster/crab, shellfish, other fish	≤100g/day
14.added fats	monounsaturated fatty acids, polyunsaturated fatty acids, saturated fat	≥0.8 for unsaturated: saturated fat ratio
total score		14

Supplementary Table S8. Single-nucleotide polymorphisms used to construct the genetic risk score for cholelithiasis

^a Hazard ratio and 95% CI were estimated from multivariate Cox regression models stratified by age, sex, UK Biobank assessment centers, and additionally adjusted for overall health rating, long-standing illness, education, index of multiple deprivation, multivitamin use, mineral use, smoking status, alcohol consumption, physical activity and body mass index.

^b Sensitivity analysis lagged the exposure by 2 years.

^c Sensitivity analysis lagged the exposure by 4 years.

^d sensitivity analysis removed the variable BMI from the multivariable-adjusted model.

Supplementary Table S26. Sensitivity analyses of the cholelithiasis risk according to hPDI and the level of genetic risk^a.

Group	Sensitivity analysis ^b		Sensitivity analysis ^c		Sensitivity analysis ^d	
	HR (95%CI)	P value	HR (95%CI)	P value	HR (95%CI)	P value
High genetic risk
