

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/tp-24-219">https://dx.doi.org/10.21037/tp-24-219</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	T1-3D MR images of tetralogy of Fallot in the preschool years, especially since we also have developmental scales and relevant clinical indicators for these children.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One years within the publication date, since the technique or CHD data may be updated over time.
7	To whom will you share the data?	Research scholars interested in the neurodevelopment of children with congenital heart disease.
8	For what type of analysis or purpose?	For exploring the neurodevelopment of children with congenital heart disease.

9	How or where can the data/documents be obtained?	Obtained by email from the corresponding author. yangming19710217@163.com
10	Any other restrictions?	We can evaluate the potential benefits and risks for each request and then share the data that is deemed appropriate.
