

TRIPOD Checklist: Prediction Model Development and Validation

Section	Item		Checklist description	Reported on Page Number/Line Number	Reported on Section/Paragraph
Title and abstract					
Title	1	D;V	Identify the study as developing and/or validating a multivariable prediction model, the target population, and the outcome to be predicted.	Page1/line1-3	Title
Abstract	2	D;V	Provide a summary of objectives, study design, setting, participants, sample size, predictors, outcome, statistical analysis, results, and conclusions.	Page2-3/line23-56	Abstract
Introduction					
Background and objectives	3a	D;V	Explain the medical context (including whether diagnostic or prognostic) and rationale for developing or validating the multivariable prediction model, including references to existing models.	Page3-5/line59-123	Introduction/paragraph1-3
	3b	D;V	Specify the objectives, including whether the study describes the development or validation of the model or both.	Page3-5/line116-123	Introduction/paragraph4-5
Methods					
Source of data	4a	D;V	Describe the study design or source of data (e.g., randomized trial, cohort, or registry data), separately for the development and validation data sets, if applicable.	Page5-6/line127-147	Methods/paragraph1
	4b	D;V	Specify the key study dates, including start of accrual; end of accrual; and, if applicable, end of follow-up.	Page5/line129	Methods/paragraph1
Participants	5a	D;V	Specify key elements of the study setting (e.g., primary care, secondary care, general population) including number and location of centres.	Page5/line127-129	Methods/paragraph1
	5b	D;V	Describe eligibility criteria for participants.	Page6/line129-140	Methods/paragraph1
	5c	D;V	Give details of treatments received, if relevant.	Page5/line127	Methods/paragraph1
Outcome	6a	D;V	Clearly define the outcome that is predicted by the prediction model, including how and when assessed.	Page9/line181-248	Methods/paragraph1-11
	6b	D;V	Report any actions to blind assessment of the outcome to be predicted.	Page9/line233-248	Methods/paragraph11
Predictors	7a	D;V	Clearly define all predictors used in developing or validating the multivariable prediction model, including how and when they were measured.	Page7-9/line192-231	Methods/paragraph8-10
	7b	D;V	Report any actions to blind assessment of predictors for the outcome and other predictors.	Page9/line233-248	Methods/paragraph11
Sample size	8	D;V	Explain how the study size was arrived at.	Page5/line129-131	Methods/paragraph1

Missing data	9	D;V	Describe how missing data were handled (e.g., complete-case analysis, single imputation, multiple imputation) with details of any imputation method.	Na	Na
Statistical analysis methods	10a	D	Describe how predictors were handled in the analyses.	Page8-9/line208-210	Methods/paragraph 10-11
	10b	D	Specify type of model, all model-building procedures (including any predictor selection), and method for internal validation.	Page9/line233-248	Methods/paragraph 11
	10c	V	For validation, describe how the predictions were calculated.	Page9/line233-248	Methods/paragraph 11
	10d	D;V	Specify all measures used to assess model performance and, if relevant, to compare multiple models.	Page8-9/line218-219	Methods/paragraph 10-11
	10e	V	Describe any model updating (e.g., recalibration) arising from the validation, if done.	Page8-9/line218-219	Methods/paragraph 10-11
Risk groups	11	D;V	Provide details on how risk groups were created, if done.	Page6/line128-150	Methods/paragraph 11
Development vs. validation	12	V	For validation, identify any differences from the development data in setting, eligibility criteria, outcome, and predictors.	Page9/line233-248	Methods/paragraph 11
Results					
Participants	13a	D;V	Describe the flow of participants through the study, including the number of participants with and without the outcome and, if applicable, a summary of the follow-up time. A diagram may be helpful.	Page10/line251-260	Results/paragraph 1
	13b	D;V	Describe the characteristics of the participants (basic demographics, clinical features, available predictors), including the number of participants with missing data for predictors and outcome.	Page10/line251-260	Results/paragraph 1
	13c	V	For validation, show a comparison with the development data of the distribution of important variables (demographics, predictors and outcome).	Page11/line279-304	Results/paragraph 4-7
Model development	14a	D	Specify the number of participants and outcome events in each analysis.	Page10-11/line251-260	Results/paragraph 1-2
	14b	D	If done, report the unadjusted association between each candidate predictor and outcome.	Page11-12/line306-325	Results/paragraph 8
Model specification	15a	D	Present the full prediction model to allow predictions for individuals (i.e., all regression coefficients, and model intercept or baseline survival at a given time point).	Page10-12/line269-304	Results/paragraph 3-7
	15b	D	Explain how to use the prediction model.	Page10-11/line269-284	Results/paragraph 6-7
Model	16	D;V	Report performance measures (with CIs) for the prediction model.	Page11-	Results/paragraph 8
Model-updating	17	V	If done, report the results from any model updating (i.e., model specification, model performance).	Page11-	Results/paragraph 8
Discussion					
Limitations	18	D;V	Discuss any limitations of the study (such as nonrepresentative sample, few events per predictor, missing data).	Page16/line417-425	Discussion/paragraph 7

Interpretation	19a	V	For validation, discuss the results with reference to performance in the development data, and any other validation data.	Page13-16/line327-381	Discussion/paragraph1-5
	19b	D;V	Give an overall interpretation of the results, considering objectives, limitations, and results from similar studies, and other relevant evidence.	Page13-16/line327-425	Discussion/paragraph1-7
Implications	20	D;V	Discuss the potential clinical use of the model and implications for future research.	Page13-16/line327-425	Discussion/paragraph1-7
Other information					
Supplementary information	21	D;V	Provide information about the availability of supplementary resources, such as study protocol, Web calculator, and data sets.	Page16/line323-325	Results/paragraph8
Funding	22	D;V	Give the source of funding and the role of the funders for the present study.	Page17/line450-454	Acknowledgement

* Items relevant only to the development of a prediction model are denoted by D, items relating solely to a validation of a prediction model are denoted by V, and items relating to both are denoted D;V. We recommend using the TRIPOD Checklist in conjunction with the TRIPOD Explanation and Elaboration document.
