<p><b>a.</b> Corrected for age; <b>b.</b> Corrected for education; <b>c.</b> Corrected for sex; <b>d.</b> Corrected for race/ethnicity; Norms applied at each site were those used in research studies and to not necessarily the same norms applied clinically.</p> <p>Dash (-) indicates that the test was not administered at the site. Manual indicates that normative data provided by each test corresponding manual was used.</p> <p>DKEFS: Delis-Kaplan Executive Function System; WMS: Wechsler Memory Scale III or IV; VPA: Verbal Paired Associates; CVLT-II: California Verbal Learning Test-II; AVLT: Auditory Verbal Learning Test; TMT: Trail Making Test; WCST: Wisconsin Card Sorting Test; CW Inh/Swit: Color-Word Inhibition/Switching; Stroop CW: Stroop Color-Word; JOLO: Judgment of Line Orientation; WMS VR Copy: Wechsler Memory Scale Visual Reproduction Copy</p>				

\*Block Design and Matrix Reasoning were administered from the Wechsler Abbreviated Scale of Intelligence (I or II) or Wechsler Adult Intelligence Test-IV (WAIS-IV); Arithmetic, Coding and Symbol Search were from the WAIS-IV.

∞Test was excluded from test impairment analyses because less than 10% of the total sample was administered the test.
