

**A****B**

**Supplementary Figure S4. Pretreatment NKs co-expression of PD-1 and KIR2DL1 or KIR2DL2/DL3 in mRCC-REV patients.** % of co-expression of PD-1 and KIR2DL1 or KIR2DL2/DL3 on NK cells in the HD and REV groups. **(A)** %<sup>PD-1+KIR2DL1+</sup>NKs: HD (n=41) vs REV (n=39), p<0.05; **(B)** %<sup>PD-1+KIR2DL2/DL3+</sup>NKs: HD (n=41) vs REV (n=39), p<0.01. Box plot showing the data distribution across groups with minimum, median, and maximum value. Two tailed test comparison of differences between two independent groups (\*p<0.05; \*\*p<0.01; \*\*\*p<0.001).
