Supplementary Figure S7. Pretreatment NKs and Tregs subpopulations in mRCC-REV Long Responder (LR) patients vs Not-Responders (NR). (**A**) % $^{KIR2DL2/DL3+}$NKs: LR (n=16) vs NR (n=21), p<0.01. (**B**) % $^{PD-1+}$Tregs: LR (n=16) vs NR (n=21), p<0.05. % $^{Helios+}$Tregs: LR (n=12) vs NR (n=17), p<0.01. Box plot showing the data distribution across groups with minimum, median, and maximum value. Two tailed test comparison of differences between two independent groups (*p<0.05; **p<0.01; ***p<0.001).
