

Description Of Additional Supplementary File

File name: Supplementary Data 1

Description: Differentially expressed miRNAs between E14, E17 and P0 cortical samples as well as NPCs versus neurons.

File name: Supplementary Data 2

Description: Module assignment of miRNAs in the WCGNA analysis.

File name: Supplementary Data 3

Description: GO terms of miRNA targets of the black and green modules from the WCGNA analysis.

File name: Supplementary Data 4

Description: Significant co-targeting relationships between miRNAs/miRNA families.

File name: Supplementary Data 5

Description: Individual values underlying figures.
