

PRE-IMPLEMENTATION HYPERBILIRUBINEMIA SURVEY

ROLE:

CURRENT ROLE WITHIN THE DEPARTMENT

HOW MANY YEARS HAVE YOU WORKED IN THE UNIT

INSTRUCTIONS:

the following questions ask you about your current experience with Hyperbilirubinemia patients. Please circle the number that most closely indicates how the current process works.

QUESTIONS:

RATING SCALE:

Not at all Not very Neutral Somewhat Very

How knowledgeable are you with management of neonatal hyperbilirubinemia?

How knowledgeable are you about the complications of untreated hyperbilirubinemia?

How Knowledgeable are you with risk factors of hyperbilirubinemia?

How satisfied are you with the management of neonatal hyperbilirubinemia in the ED?

How comfortable are you performing heel sticks to obtain blood samples from a neonate?

How often do you think treatment for infants with hyperbilirubinemia is delayed in the ED?

How likely are you to place a PIV to draw labs from Neonate presenting with hyperbilirubinemia?

POST-IMPLEMENTATION HYPERBILIRUBINEMIA SURVEY
