

CORRECTION

The pathway of electron flow through ubiquinol : cytochrome *c* oxidoreductase in the respiratory chain

Evidence from inhibition studies for a modified 'Q cycle'

A. P. HALESTRAP

Volume 204 (1982)

p. 51, Figure 1 legend, ll. 18–20. *The last sentence should read:*

The spectra (iv)–(vi) represent differences spectra (ii–iii),
(i–iii) and (i–ii) respectively in both (a) and (b).

p. 52, Figure 2 legend, ll. 4–7. *The third sentence should read:*

The spectra (vii)–(ix) represent the difference spectra (ii–iii),
(i–ii) and (i–iii) respectively.

p. 52, Figure 3 legend, ll. 4–8. *The second sentence should read:*

Spectra were performed after addition of antimycin (i), HQNO (ii)
or collettotrichin (iii) to the sample cuvette.

p. 53, Figure 4 legend, ll. 8–10. *The last sentence should read:*

The spectra (v)–(vii) represent difference spectra (ii–iii),
(i–iii) and (i–ii) respectively.

p. 55, Figure 7 legend, l. 5:

for reference cuvette *read* sample cuvette

p. 55, Figure 7

Spectra (ii) and (iii) should be transposed.
