

Figure S3

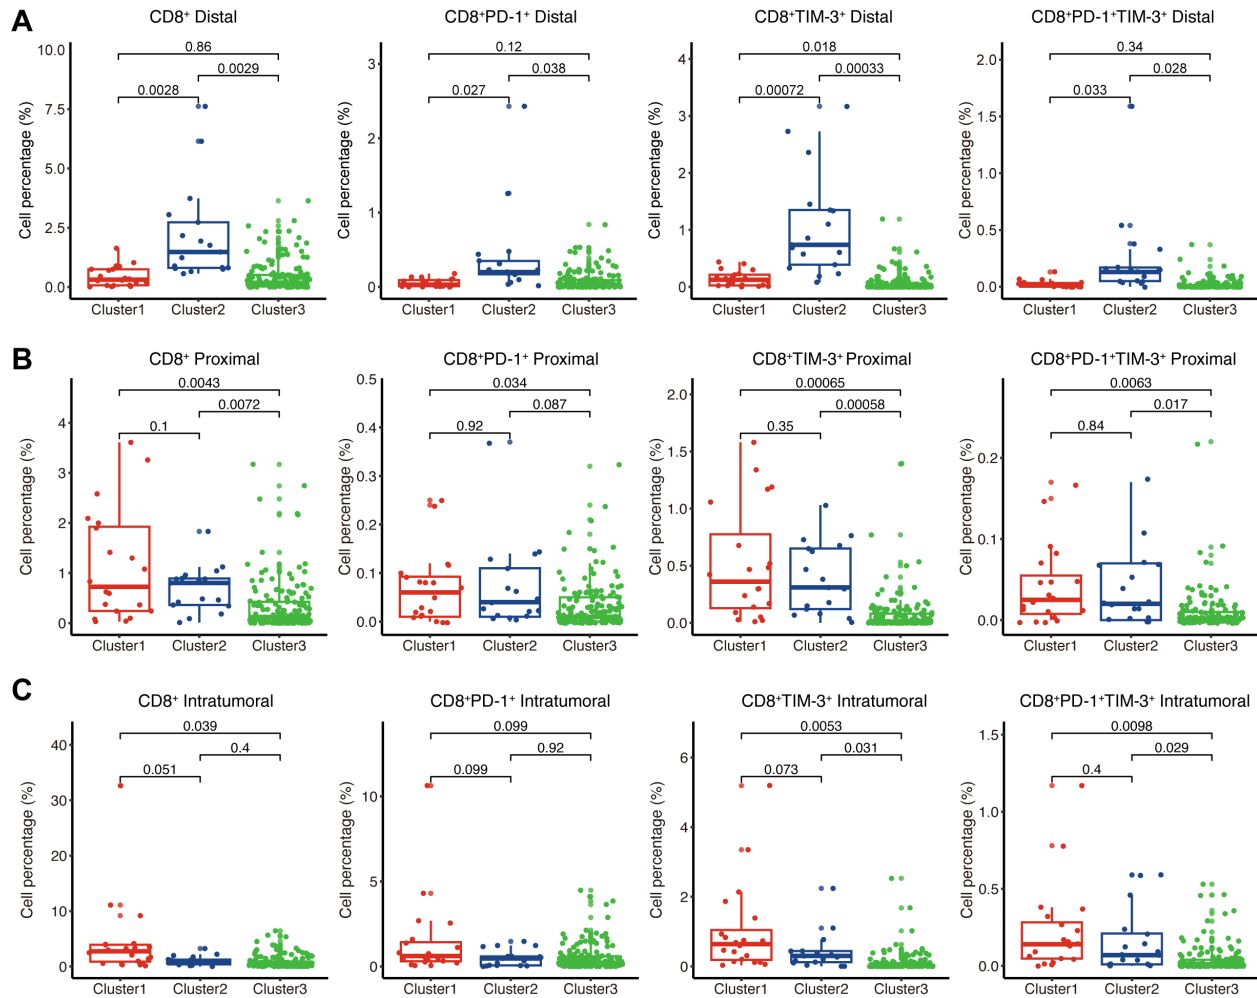

Figure S3

**Comparative analysis of CD8<sup>+</sup> cell subtypes distribution across spatial clusters in unsupervised groupings.** **A**, Boxplots depicting the proportions of distal CD8<sup>+</sup> cells subtype in the groups with unsupervised clusters. Data are determined by wilcoxon test. **B**, Boxplots depicting the proportions of proximal CD8<sup>+</sup> cells subtype in the groups with unsupervised clusters. Data are determined by wilcoxon test. **C**, Boxplots depicting the proportions of intratumoral CD8<sup>+</sup> cells subtype in the groups with unsupervised clusters. Data are determined by wilcoxon test.
