

### Data Sharing Plan (Ver-A-T1D)

Will individual participant data be available (including data dictionaries)?	yes
What data in particular will be shared?	Individual participant data that underlie the results reported in this article after deidentification (text, tables, figures, and appendices).
What other documents will be available?	Study protocol
When will data be available ? (start and end dates)	Beginning after publication of the primary results papers reporting the prespecified endpoints described in the Statistical analysis plan. (no end date)
With whom?	Researchers who provide a methodologically sound proposal – and if needed an ethics approval for the project
For what types of analyses?	For research projects. To achieve aims in the approved proposal at the level of individual data including for meta-analyses
By what mechanism will data be made available?	Proposals should be directed to the Chief-Investigator (who may consult with other members of the trial team).  To gain access, data requestors will need to sign a data access agreement.  Data will be made available directly to the person requesting the data.
