

APPENDIX 3: SEARCH STRATEGIES

Database searches of OVID Medline, OVID Embase, Ovid Global Health and Scopus will be performed.

The search strategy aimed to return publications referring to each of the following three concepts in their subject heading, keywords list, title or abstract:

1. Terms relating to tuberculosis
2. Terms relating to epidemiology, demography, infectious disease outbreaks or transmission,
epidemics.
- 3.Terms relating to agent-based, individual-based or microsimulation models.

EMBASE:

1. exp tuberculosis/
2. (tuberculos* or tb).mp.
3. 1 or 2
4. exp epidemiological data/
5. exp epidemiological monitoring/
