

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jtd-24-971">https://dx.doi.org/10.21037/jtd-24-971</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes. Deidentified data would be available upon reasonable and well justified request.
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	Lymph node evaluation data, pathologic upstaging, and survival data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	At the time of publication.
6	When will data availability end?	One year from the study publication date.
7	To whom will you share the data?	Thoracic surgeons or medical oncologist who have submitted an argueded reasonable request.
8	For what type of analysis or purpose?	To analyze the impact of lymph node evaluation on outcomes of lung cancer patients.
9	How or where can the data/documents be obtained?	E-mail request can be sent to: Tapias.Luis@mayo.edu
10	Any other restrictions?	We will assess each request individually to assess benefits/risks of sharing the data. We also reserve the right of sharing only partial data.
