

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/tcr-24-1131	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We plan to share the incidence and characteristics of t-MNs that occurred after the use of PARPi. This data has not been previously presented in Korea.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical hematologists, oncologists, and gynecologic surgeons who are interested in studies of PARPi.
8	For what type of analysis or purpose?	Analysis of the characteristics of t-MNs occurring after the use of PARPi in ovarian cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: hyejin@kirams.re.kr
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
