

Figure S1. Chest CT and chest radiograph showing a right pleural effusion and a hydrothorax on the right side. (A) Chest CT on admission, showing a large piece of white lung on the right side with air bronchial sign and a large pneumothorax in the right pleural cavity. (B) Chest CT on admission, showing a right pleural effusion. (C) Chest radiography on admission, showing bilateral pneumonia and a hydrothorax on the right, with blurred right heart border. CT, computed tomography.
