Thanks Drauzio and Alene for your amazing
organisation of ISFUS 2022. It has been a privilege
to participate in this very special meeting. There
is a different 'feel' compared with other conferences
which you should definitely preserve, as it creates
a great atmosphere for science as well as for
making new friends. Thank you for all your
hard work to achieve this and for including me.

So one day I came here alone
But that's not the way I'm going home

I came here for science and knowledge and expertise
Not exactly knowing what I'm about to find
A sapling midst the tallest trees
Longing for a glimpse of the light so bright

But rain and sunlight made the sapling grow
And the wind made it resilient
Because in this garden of trees there lies a soul
The soul so kind and so brilliant

The tall ones share what they've created
Their wisdom of all the seasons they've seen
The saplings, meanwhile, companionship they sought
And the trees, as they looked, they also agreed

But now it is late, and that's how it ends
The short story of the sapling in the south
A story of growth and sharing, of teachers and friends
And that is what this gathering was all about

Because the sapling came here alone
But that's not how the young tree is going home

and your lovely ladies
(Aline & Amanda) and
your lovely students for
this organization

Thank you so much Drauzio for giving me the opportunity to meet you
and all these wonderful people!

Hope to see you soon (in Muskruck?)
