

7216 dsRNA library
organized in 76
96-well plates

1: RNA interference

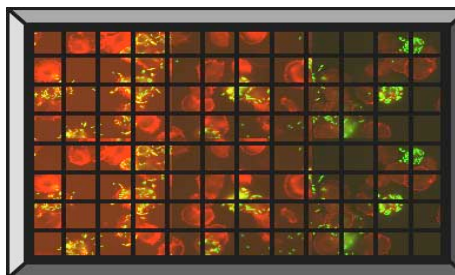

5 day incubation of S2
cells with dsRNA library

2: Infection

Infection of dsRNA treated
S2 cells by *Listeria*
monocytogenes strains
for 7.5 hrs

3: Immunofluorescence

Immunofluorescence
staining with
□-*Listeria* antibody
Phalloidin-TRITC
