

Table 3. Molecular Signature Database (MSigDB) collections

Database	Total number of sets	Number of sets smaller than 15	Number of sets greater than 500	Number of sets used	Percent used
C1	319	74	10	235	74
C2	522	194	0	328	63
C3	57	0	0	57	100
C4	427	0	0	427	100

Listed are the number of gene sets in each collection, the numbers of sets that pass the size thresholds (min = 15, max = 500), and the final number of sets used in the examples in the text.
