

mock WT *cagN*⁻ *cagA*⁻ *cagE*⁻ PAI

bone morphogenetic protein 2
 bullous pemphigoid antigen 1
 interferon stimulated gene
 programmed cell death 10
 transmembrane protease, serine 2
 AF-6 (Drosophila, trithorax homolog)
 cisplatin resistance associated
 cylindromatosis (turban tumor syndrome)
 SOCS box-containing WD protein SWiP-1
 proline rich 2
 fatty-acid-Coenzyme A ligase, long-chain 2
 phosphatidylinositol glycan, class A
 feminization 1 homolog A
 extracellular matrix protein 1
 syndecan binding protein (syntenin)
 bullous pemphigoid antigen 1
 B-cell translocation gene 1
 MAX dimerization protein
 laminin, gamma 2
 matrix metalloproteinase 14
 integrin, alpha V
 baculoviral IAP repeat-containing 2
 CEGP1

1/4 0 4 fold induced
