

Errata

Br. J. clin. Pharmac. (1979), **8**, 107S–111S

'Comparative haemodynamic effects of labetalol, timolol, prazosin and the combination of tolamolol and prazosin' by Per Lund-Johansen.

The legend to Figure 2 should appear under the figure currently represented as Figure 3 and *vice versa*.

The authors of the second reference should read 'Awan, N.A., Miller, R.R., Miller, M.P., Specht, K., Vera, Z. & Mason, D.T. 1978.'

Br. J. clin. Pharmac. (1980), **9**, 137–143

'The pharmacokinetics of methimazole after oral administration of carbimazole and methimazole, in hyperthyroid patients.'

The authors should read 'G.G. Skellern, B.I. Knight, L.C.K. Low, W.D. Alexander, D.G. McLarty & W.J. Kalk'.

Br. J. clin. Pharmac. (1980), **9**, 145–147

'The pharmacokinetics of methimazole in pregnant patients after oral administration of carbimazole'.

The authors should read 'G.G. Skellern, B.I. Knight, M. Otter, L.C.K. Low & W.D. Alexander'.

p. 147. The year of the final reference Skellern *et al.* is 1980.

FIRST COLLOQUIUM ON LIPID METABOLISM AND ITS PATHOLOGY

Lisbon 8–11 December 1980

The purpose of this Colloquium is to provide an international forum for the interchange of information on lipid metabolism and its pathology. Attention will be focussed especially on lipoprotein structure and metabolism, hyperlipidaemia, lipids and coagulation, phospholipids, lipidosis and techniques of lipid study.

On the 12 and 13 December, a practical course on lipid determination will be organized, covering techniques on hyperlipidaemia screening, high resolution, thin layer chromatography, gas chromatography, ultracentrifugation, electrophoresis and methods for study of apoproteins and HDL cholesterol.

A commercial exhibition of equipment and reagents will be organized presenting the present status of technology and methodology in the field of lipid biochemistry.
