

Table 2. Productive T / B cooperation in tetraparental chimeras is only possible if CD4⁺ T cells express TCR restricted to nonthymic MHC of B cells

Tetraparental Chimera	Thymic epithelial cells	T cells B cells	T / B cooperation
SCID ^d ↔ nude ^b	H-2 ^d	H-2 ^b	<p>H-2^b-restricted TCR H-2^d-restricted TCR</p>
Rag-/- ^b ↔ nude ^d	H-2 ^b	H-2 ^d	<p>H-2^d-restricted TCR H-2^b-restricted TCR</p>
