Dear Dr.

Aetna U.S. Healthcare recently sent you an invitation to participate in a collaborative project sponsored by Aetna and the University of Alabama School of Medicine involving a series of primary care Continuing Medical Education (CME) courses. This research project, funded by the Agency for Healthcare Research and Quality, provides an excellent opportunity for you to assess your knowledge of primary care issues over the Internet in an innovative and interactive manner. Routinely collected Aetna data may be used to customize the Internet modules to the individual physician. The benefits of participating include:

- Access to cases relevant to your practice
- 4 hours of Category 1 CME credit at no cost
- Courses can be taken at your convenience, 24 hours a day 7 days a week
- Instant online credit certificate for successful completion of the course

Your participation involves the completion of four courses offered over twelve months beginning January 1, 2002 and a short post-assessment survey. The time commitment is about 30 minutes per course and about 15 minutes at the end of the project to complete a post-assessment survey. You must have Internet access to participate in these courses.

To register for this series of online CME courses, please complete and return the registration form below by fax to: Division of CME, University of Alabama School of Medicine, Fax: 205-934-1939.

Thank you for your consideration of this exciting program.

Sincerely,

Linda Casebeer, PhD
Associate Director
