Erratum in the "Perspectives on Alcohol Abuse" Issue of *Public Health Reports*

In the article, "Alcoholism Research: Delivering on the Promise," that appeared in the November-December 1988 issue of *Public Health Reports*, an incorrect statement appeared on page 571, column one, line 25.

It should have read: "For every dog or cat that serves humanity in research, 1,000 are killed at animal shelters (4)."

Public Health Reports regrets the error.
