#### Corrections

##### Thyroid Replacement Therapy

In the article "Combined Thyroxine and Triiodothyronine for Thyroid Replacement Therapy" by Selwyn Taylor, M. Kapur, and Ross Adie (2 May, p. 270) part of the Acknowledgements section was omitted in error; this should have read as follows:

"Professor I. D. P. Wootton and Miss Leballeur were responsible for the P.B.I. estimations."

##### Liquor Examination

In the article "Role of Liquor Examination" by W. Walker (25 April, p. 220) the liquor bilirubin ratio referred to in the Table should have been 1.099 and not 1.009 as stated.

##### Childhood Bronchitis

In the article "Urban and Social Origins of Childhood Bronchitis in England and Wales" by J. R. T. Colley and D. D. Reid (25 April, p. 213), we greatly regret that there were a number of errors. The corrected sentences should have read as follows:

Page 213, para. 1, line 1: "A survey of respiratory disease . . . showed a pronounced social class gradient . . ."

Page 213, para. 2, line 11: "Parental social class was important in the past . . . (Grundy

and Lewis-Faning, 1957; Douglas and Blomfield, 1958)."

Page 214, para. 7, line 4: "Table II shows that after adjusting for age, height, weight, and social class . . ."

Page 214, Table II third column, second line: Peak Flow Rate (l./min.) = 226.

Page 214, para. 8, line 3: "The rates for . . . are a little higher among boys." (the remainder of the sentence being deleted).

Page 215, Table III, second column: Total = 5,414.

Page 215, Table III, third column: Total = 5,285.

Page 215, Table IV (heading): "Prevalence (% of Ear Perforation . . ."

Page 215, para. 1, line 1: "The larger samples obtained . . . allow a clear comparison . . ."

Page 216, para. 3, line 14: ". . . the constancy of the percentage deficit . . . in those with the same positive history . . ."

Page 216, Table VIII (heading): "Peak Expiratory Flow Rate . . . Males and Females"

Page 216, Table VIII (footnote): "Number of cases are given in parentheses."

Page 217, para. 2, line 1: "This large survey . . . (Douglas and Blomfield, 1958 . . .)"

Page 217, para. 1, line 8: ". . . in Douglas and Blomfield's study . . ."

Page 217, para. 5, line 12: ". . . for a Welsh excess in respiratory morbidity . . ."

Page 217, para. 5, line 15: "Without further detailed studies the true reason will remain obscure."

References: "Douglas, J. W. B., and Blomfield, J. M. (1958) . . ." "Grundy, F., and Lewis-Faning, E. (1957) . . ."

The last sentence in the first paragraph of the "Introduction" should have been deleted.
