Supplemental figure 2.

Phenotypes of single and double mutants with *val1-1* allele in WS background.

- (A) Occasional embryonic tissue formation at the cotyledon margin in *val1-1* single mutant seedling.
- (B) Embryonic seedlings of *val1-1 val2-1* double mutant.
- (C) Very weak variegation of the 1st cauline leaf in the *val1-1* single mutant.
- (D) Variegation of the 1st cauline leaf in a *val1-1 val3-3* double homozygous plant.
