

Additional file 4. A table summarizing the sequencing status of the 510 BAC clones cytogenetically mapped to unique chromosomal locations in this study.

	No. of clones[*]	Percent of clones
Sequencing complete and match	441	86.5
Completely sequenced and 2 BAC ends sequenced	147	33.3
Complete sequence only	19	4.3
2 BAC ends only	251	56.9
1 BAC end only	24	5.5
No significant matches	13	2.5
Sequencing in progress	54	10.6
Sequencing cancelled	2	0.4

^{*}Total number of clones based upon the 510 BAC clones assigned to a unique LG chromosome by FISH mapping
