

#### ERRATA

In the article by Bruce Chown, Marion Lewis, and Hiroko Kaita, "An Anomaly of Inheritance in the MNSs Blood Groups," which appeared in the Journal, Volume 17 (January, 1965), pages 9-13, the footnote to Table 2 (page 12) should read as follows:

The family was also studied for dosage with anti-M and anti-S. M+ persons gave a single dose reaction with anti-M, S+ persons a single dose reaction with anti-S.

In the article by Arthur G. Steinberg and Ronald Goldblum, "A Genetic Study of the Antigens Associated with the Gm(b) Factor of Human Gamma Globulin," which appeared in Volume 17 (March, 1965), pages 133-147, the following corrections should be made:

Table 5 (page 138): The total for the column headed Th(-)Bu(+) should be 30, that for the column Th(-)Bu(-) should be 210, those for the columns headed Bu(+) should be 1081 and 80.6%.

On page 139, third line from the bottom, replace "Bu" with "Th."

**MENDEL CENTENNIAL PROGRAM**  
under the auspices of the  
Genetics Society of America  
Colorado State University, Fort Collins, Colorado  
September 7-11, 1965

The following symposia will be held: **RESOLUTION OF THE GENETIC MATERIAL**, C. P. Oliver (Chairman), A. H. Sturtevant, E. B. Lewis, and M. Demerec; **Mutation, RECOMBINATION, GENETIC CODING**, M. Delbrück (Chairman), Charlotte Auerbach, M. Meselson, and M. Matthaei; **GENE ACTION**, E. Hadorn (Chairman), G. Buttin, F. Jacob, and J. Monod, W. Deermann, and J. Gurdon; **POPULATION GENETICS**, Sewall Wright (Chairman), A. Robertson, H. L. Carson, and L. L. Cavalli-Sforza.

Evening lectures will be presented by H. J. Muller, J. F. Crow, H. Kihara and K. Tsunewaki, and G. W. Beadle.

Annual Meeting  
**AMERICAN SOCIETY OF HUMAN GENETICS**  
Seattle, Washington  
August 25-27, 1965
