

## Corrigendum

### Functional detection of MDRI/P190 mediated multidrug resistance in tumour cells by flow cytometry

N Feller, CM Kuiper, J Lankelma, JK Ruhdal, RJ Scheper, HM Pinedo and HJ Broxterman *B. J. Cancer* (1995) **72**, 543–549.

In the legend for Figure 3 the symbols ■ and ▲ have been erroneously exchanged. The correct legend should be:

**Figure 3** Uptake and retention of R123 in the GLC<sub>4</sub> and GLC<sub>4</sub>-ADR<sub>150</sub> cells. GLC<sub>4</sub> (- - ▲ - -) and GLC<sub>4</sub>-ADR<sub>150</sub> (- - ■ - -) cells were loaded for 60 min with 200 ng ml<sup>-1</sup> R123. Retention of R123 was measured after suspending the GLC<sub>4</sub> (-▲-) and GLC<sub>4</sub>-ADR<sub>150</sub> (-■-) cells in R123-free medium.
