## Supplementary Table S4

## Number of Bub1/Bub3 dots co-localising with Pot1 (T, telomere) (shown as a %, 20 cells counted in total)

1B1/	2B1/	2B1/	3B1/	4B1/	5B1/	3B1/1T
1B3/	2B3/	2B3/	3B3/	4B3/	5B3/	4B3/4T
1T	1T	2T	3T	4T	5T	
5	5	20	30	25	10	5

Almost all cells contain at least one (and typically several) co-localising foci for Bub1-Tel and Bub3 that also co-localises with Pot1 (telomeres).
