

Supplementary Figures

Figure 1. Immunological detection of storage proteins (barley lectin, vicilin) and TIPs in root tips of 10 day old barley (A-C) and pea (D-F) seedlings. A) barley lectin; B, E) α -TIP labeled with α -TIP peptide antiserum, Jauh et al., 1998; C, F) γ -TIP labeled with γ -TIP peptide antiserum, Suga and Maeshima, 2004) Bars = 100 μ m.

Figure 2. Immunological detection of V-ATPase in root tips of 3 day old barley (A) and pea (B) seedlings. Bars = 100 μ m.
