

Supplemental Figure S9. Venn diagrams representing number of differentially regulated *Os*bZIP genes in various organs under different light conditions based on the microarray analysis from an earlier study (Jiao et al., 2005). **(A)** Number of up-regulated *Os*bZIP genes. **(B)** Number of down-regulated *Os*bZIP genes. (F: Far-red, R: Red, B: Blue and W: White)
