

**Table 2** TRANSMIT analysis for association of the microsatellite in the 5' region of *IGF1* with type 1 diabetes

Size (bp)	$\chi_1^2$	p value based on 1,000 bootstrap samples
188	2.021	0.135
190	0.024	0.885
192	0.030	0.885
194	0.326	0.569
196	0.721	0.408
198	2.946	0.096
200	0.600	0.467
Global	$\chi_6^2$	
	6.531	0.358

Microsatellite is in position 101399183 of chromosome 12 and was amplified using 5'-ACCACTCTGGGAGAAGGGTA-3' and 5'-GCTAGCCAGCTGGTGTATT-3' as the forward and reverse primer, respectively
