RE: SSC Protocol No. 359 "The role of Plasmodium falciparum
variant antigens expressed at the infected cell surface
in generation of protective immunity and in the
pathogenesis of clinical malaria" by K. Marsh et al.

During the 64th KEMRI/National Ethical Review Committee meeting held on 6th June 1995 in the KEMRI Headquarters Lecture Room the above protocol was granted full approval since you presented an acceptable Informed Consent Form.
